## Web Technologies Assignment 3b

Please hand in your homework by email to pgiarrusso@informatik. The deadline for this assignment is Nov 28.

If at all possible, please bring your laptop to the following exercises.

### H3b.1 Library Management with Keys

Developer and library data should be kept separate to avoid duplication and retain low coupling. In order to link developers to libraries and model library dependencies, keys can be used uniquely identify components.

1. Write a DTD specifying your XML library management language using keys for identifying related components.
2. Write an XML Schema specifying your XML library management language using keys for identifying related components.
